Contents

VOLUME 21, NUMBER 1, MARCH 1996
Published 8 May 1996

AMIR AYALI, E, GOLENSER and M. P. PENER
Flight fuel related differences between solitary and gregarious locusts (*Locusta migratorra migratorioides*) 1–6

JOHN BRACKENBURY
Novel locomotory mechanisms in caterpillars: life-line climbing in *Epinotia abbreviana* (Tortricidae) and *Yponomeuta padella* (Yponomeutidae) 7–14

A. BLACKWELL, C. DYER, A. J. MORDUE (LUNTZ), L. J. WADHAMS and W. MORDUE
The role of l-octen-3-ol as a host-odour attractant for the biting midge, *Culicoides impunctatus* Goetghebuer, and interactions of l-octen-3-ol with a volatile pheromone produced by parous female midges 15–19

T. C. BAKER and K.F. HAYNES
Pheromone-mediated optomotor anemotaxis and altitude control exhibited by male oriental fruit moths in the field 20–32

SVEN BACHER, JÉRÔME CASAS and SILVIA DORN
Parasitoid vibrations as potential releasing stimulus of evasive behaviour in a leafminer 33–43

CHARLES S. BURKS, RICHARD L. STEWART, JR, GLEN R. NEEDHAM and RICHARD E. LEE, JR
The role of direct chilling injury and inoculative freezing in cold tolerance of *Amblyomma americanum*, *Dermacentor variabilis* and *Ixodes scapularis* 44–50

JANE GOVER and LES STRONG
Effects of ingestion of dung containing ivermectin on aspects of behaviour in the fly *Neomyia cornicina* 51–58

ALAN J. GRANT, PAOLA F. BORRONI and ROBERT J. O'CONNELL
Different seasonal rearing conditions do not affect pheromone-sensitive receptor neurons of the adult cabbage looper moth, *Trichoplusia ni* 59–63

D. LAVY and H. A. VERHOEF
Effects of food quality on growth and body composition of the collembolan *Orchesella cincta* 64–70

JACK R. LAYNE, JR and CHRIS TEN EYCK
The effects of temperature and season on the O_2 consumption of third-instar larvae of the goldenrod gall fly (*Eurosta solidaginis*) 71–75

DAVID RAUBENHEIMER and GERD GÄDE
Separating food and water deprivation in locusts: effects on the patterns of consumption, locomotion and growth 76–84

VOLUME 21, NUMBER 2, JUNE 1996
Published 30 July 1996

DAVID ADLINGTON, SARAH E. RANDOLPH and DAVID J. ROGERS
Flying to feed or flying to mate: gender differences in the flight activity of tsetse (*Glossina palpalis*) 85–92

C. N. L. BOGAHAWATTE and H. F. VAN EMDEN
The influence of the host plant of diamond-back moth (*Plutella xylostella*) on the plant preferences of its parasitoid *Cotesia plutellae* in Sri Lanka 93–96

JIM HARDIE, J. ROBERT STORER, FRASER J. COOK, COLIN A. M. CAMPBELL, LESTER J. WADHAMS, RICHARD LILLEY and LYNN PEACE
Sex pheromone and visual trap interactions in mate location strategies and aggregation by host-alternating aphids in the field 97–106

MARTIN J. PARR, BRUNO M. D. TRAN, MONIQUE S. J. SIMMONDS and PETER F. CREDLAND
Oviposition behaviour of the cowpea seed beetle, *Callosobruchus maculatus* 107–117

RICHARD J. HOPKINS and BARBARA EKBOM
Low oviposition stimuli reduce egg production in the pollen beetle *Meligethes aeneus* 118–122

VLADIMÍR KŮSTÁL and STANLEY FINCH
Preference of the cabbage root fly, *Delia radicum* (L.), for coloured traps: influence of sex and physiological status of the flies, trap background and experimental design 123–130

PETER G. N. NJAGI, B. TORTO, D. OBENG-OFORI and A. HASSANALI
Phase-independent responses to phase-specific aggregation pheromone in adult desert locusts, *Schistocerca gregaria* (Orthoptera: Acrididae) 131–137

FLAVIO ROCES and JOSUÉ A. NÚÑEZ
A circadian rhythm of thermal preference in the ant *Camponotus mus*: masking and entrainment by temperature cycles 138–142

S. J. TORR and T. N. C. MANGWIRO
Upwind flight of tsetse (*Glossina* spp.) in a response to natural and synthetic host odour in the field 143–150

MEIRAV S. WARBURG and BOAZ YUVAL
Effects of diet and activity on lipid levels of adult Mediterranean fruit flies 151–158

STEVEN SCHOFIELD and JOHN BRADY
Circadian activity pattern in the stable fly, *Stomoxys calcitrans* 159–163

VOLUME 21, NUMBER 3, SEPTEMBER 1996
Published 21 November 1996

S. J. SIMPSON
Obituary: Peter Lamont Miller (1931–1996) 165–166

A. AYALI, M. P. PENER, S. M. SOWA and L. L. KEELEY
Adipokinetic hormone content of the corpora cardiaca in gregarious and solitary migratory locusts 167–172

JOHN COLVIN
Diapause duration, survival in relation to desiccation and egg-pod morphology of the Senegalese grasshopper, *Oedaleus senegalensis* 173–178

HENRY Y. FADAMIRO and TRISTRAM D. WYATT
Factors influencing response of flying *Prostephanus truncatus* to its male-produced aggregation pheromone 179–187

TH. C. BOSSE and A. VEERMAN
Involvement of vitamin A in the photoperiodic induction of diapause in the spider mite *Tetranychus urticae* is demonstrated by rearing an albino mutant on a semi-synthetic diet with and without β-carotene or vitamin A 188–192

GERD GÄDE, ROLAND KELLNER and KENNETH L. RINEHART
Pyrgomorphid grasshoppers of the genus *Phymateus* contain species-specific decapeptides of the AKH/RPCH family regulating lipid-mobilization during flight 193–202

C. A. GROENENDIJK and W. TAKKEN
Host odour composition affects host location efficiency of tsetse (Diptera, Glossinidae) 203–211

SARA L. FREARS, PETER I. WEBB and STEVEN R. TELFORD
The allometry of metabolism in southern African millipedes (Myriapoda: Diplopoda) 212–216

A. MAFRA-NETO and T. C. BAKER
Elevation of pheromone response threshold in almond moth males pre-exposed to pheromone spray 217–222

I. PARIPOVIC, R. M. HENNIG and D. OTTO
Abdominal ventilatory pattern in crickets depends on the stridulatory motor pattern 223–230

MARLIES VAZ NUNES, STEPHEN YOUNG and JIM HARDIE
Laboratory-simulated naturally-decreasing day lengths, twilight and aphid photoperiodism 231–241

DEBORAH L. JACKSON, VOYTECH JAROSIK and ANTHONY F. G. DIXON
Resource partitioning and tolerance of monoterpenes in four species of spruce aphid 242–246

VOLUME 21, NUMBER 4, DECEMBER 1996
Published 22 December 1996

ABDELGHANI BOUAÏCHI, STEPHEN J. SIMPSON and PETER ROESSINGH
The influence of environmental microstructure on the behavioural phase state and distribution of the desert locust *Schistocerca gregaria* 247–256

GUY BLOCH, DAVID W. BORST, Z.-Y. HUANG, GENE E. ROBINSON and ABRAHAM HEFETZ
Effects of social conditions on Juvenile Hormone mediated reproductive development in *Bombus terrestris* workers 257–267

ANN-SHYN CHIANG, GLENN L. HOLBROOK and COBY SCHAL
Development–activity relationships in nymphal corpora allata of the cockroach, *Diploptera punctata* 268–274

BILL S. HANSON, SAMUEL A. OCHIENG', ULF WELLMAR, STIG JÖNSSON and TOMMY LILJEFORS
No inhibitory effect on receptor neurone activity by sulphur analogues of the sex pheromone component (Z)-5-decenyl acetate in the turnip moth, *Agrostis segetum* (Lepidoptera: Noctuidae) 275–282

JONATHAN D. KELTY, KATHLEEN A. KILLIAN and RICHARD E. LEE, JR
Cold shock and rapid cold-hardening of pharate adult flesh flies (*Sarcophaga crassipalpis*): effects on behaviour and neuromuscular function following eclosion 283–288

D. KOEDAM, P. H. VELTHAUSZ, T. V. D. KRIFT, M. R. DOHMEN and M. J. SOMMEIJER
Morphology of reproductive and trophic eggs and their controlled release by workers in *Trigona (Tetragonisca) angustula* Illiger (Apidae, Meliponinae) 289–296

GUGS LUSHAI, JIM HARDIE and RICHARD HARRINGTON
Inheritance of photoperiodic response in the bird cherry aphid, *Rhopalosiphum padi* 297–303

RICHARD LILLEY and JIM HARDIE
Cereal aphid responses to sex pheromones and host-plant odours in the laboratory 304–308

QUENTIN PAYNTER and JOHN BRADY
The effect of wind speed on the flight responses of tsetse flies to CO_2: a wind-tunnel study 309–312

MICHAEL T. SIVA-JOTHY, DAVID EARLE BLAKE, JILL THOMPSON and JONATHAN J. RYDER
Short- and long-term sperm precedence in the beetle *Tenebrio molitor*: a test of the 'adaptive sperm removal' hypothesis 313–316

MAURICE J. TAUBER, CATHERINE A. TAUBER and JAMES R. NECHOLS
Life history of *Galerucella nymphaeae* and implications for rearing univoltine chrysomelids 317–324

H. F. VAN EMDEN, BARBARA SPONAGL, EVELYN WAGNER, T. BAKER, S. GANGULY and SOFIA DOULOUMPAKA
Hopkins' 'host selection principle', another nail in its coffiin 325–328

P. OLIVIER ZANEN and RING T. CARDÉ
Effects of host-odour plume altitude and changing wind velocity on upwind flight manoeuvres of a specialist braconid parasitoid 329–338

MARLIES VAZ NUNES and JIM HARDIE
Differential photoperiodic responses in genetically identical winged and wingless pea aphids, *Acyrthosiphon pisum*, and the effect of day length on wing development 339–343
